

PHẠM MINH HOÀNG NAM

Node.js Backend Developer

Email: pmhnamdev@gmail.com
Phone: 0855457078
Dob: 26/09/2000
Gender: Male
Website: hnam.id.vn
Address: Hiep Binh Phuoc, TP Thu Duc, TP HCM

OBJECTIVE

Enthusiastic and motivated Node.js developer with a solid foundation in JavaScript and a strong desire to contribute to dynamic and innovative projects. Eager to leverage my skills in Node.js and server-side development to collaborate with a dedicated team and further enhance my programming expertise. Seeking an opportunity to learn, grow, and actively contribute to the development of cutting-edge web applications while embracing best practices and expanding my technical skill set.

EDUCATION

2018 - 2023
University of Transport Ho Chi Minh City
Information Technology
GPA: 3.47

WORK EXPERIENCE

08/2022 - 10/2023
Vinova Corp
Backend developer

- Created high-performance Node.js apps for scalability and responsiveness.
- Translated requirements into robust backend solutions via team collaboration.
- Crafted clean JS and TS code, meeting standards and joining code reviews.
- Designed secure RESTful APIs with efficient data validation.
- Directed debugging, troubleshooting, and optimization for seamless app operation.

SKILLS

Programming Language	Typescript, Javascript, SQL
Framework	NestJS, Express.js
Database	MongoDB, PostgreSQL, MySQL, Redis
Other	Git, Docker, Linux, Websocket, Nginx, AWS

PROJECTS

Courses E-commerce
Demo: <https://cec.hnam.id.vn>

Name of customer	Personal project
Description project	An online course-selling website serves as a platform enabling instructors and course creators to develop, publish, and vend courses to learners via the Internet, while also facilitating real-time Q&A sessions.
Your team size	2
Your position in project	Node.js backend developer
Your responsibility in project	Evaluated customer needs and crafted project documentation. Architected and designed the database system. Constructed backend APIs utilizing Node.js, Express, and MongoDB. Effectively deployed the project onto a VPS.
Technology description	BE: Node.js, Express.js, MongoDB, Redis, Cloudinary. FE: React

CERTIFICATIONS

05/2023 TOEIC 705

INTERESTS

I enjoy playing soccer, video games and listen to music.
